PHOTO TIPS:

- You want to be neat. Wear your best business attire that makes you feel comfortable & confident. It translates into your photos!
- Wear solid color clothing. Patterns can be distracting. The most important subject in the photo is you, not your zebra print top!
- Pastel colors are not typically recommended. The same holds true of black & white.
- Think of a color someone has complimented you in and go with that.
- Jewel tones are flattering on all skin tones.
- Use matte, rather than shimmery, finishes for powder, cheek color and eye shadow.
- Apply your makeup in natural light.
- Set your makeup with a tinted powder, rather than a translucent powder.
- Practice your look and take pictures with a digital camera before your event so you can evaluate your work beforehand.
- If you use concealer under your eyes to cover dark circles, use a mauve or light flesh tone, not white, concealer.
- Wear a brighter color lipstick than usual.
