

The Biggert-Waters Flood Bill of 2012 is a reason for concern for property owners, the real estate industry, insurance industry, and the lenders. The Bill targets older properties in High Risk Flood Zones and requires these properties to be rated with Actuarial Rates rather than the long standing Subsidized Rates. Thus, buildings become unaffordable to insure and impossible to sell. The Real Estate Market will be directly affected by this new law.

Join us for a presentation by
Robert Scudder, Regional Marketing Director
with Fidelity National Insurance Flood Division

Tuesday, May 6, 2014
