New Input Forms Effective December 4 - Action Required

December 4: New fields will be added to the MLS to enhance the overall user experience and search functionality. These new fields will be available tomorrow but will not initially be required, allowing users time to gather the required information.

New Listing Input Forms (for immediate use)

Residential (12-01-18)

Land (12-02-18)

Multifamily (12-02-18)

Residential Rental (11-26-18)

Auction (11-28-18)

Status Change (11-29-18)

Summary of Required Fields to edit existing listings (input before December 4)

Residential New Required Fields

Land New Required Fields

Multifamily New Required Fields

Residential Rental New Required Fields

Auction (no new required fields)

January 7: New required fields, are now required. This means an update to any listing (such as a price change, date extension, or any other data change) will trigger the new required fields to be updated.
